Vinovo, March 8th, 2018

Subject: EU declaration of conformity.

ITALTRECCE confirms that products “BRAIDED GROUND STRAPS – Series MT or MTT” are in compliance with the requirements of the European directives:

- Directive Low Voltage 2014/35/EU.
- Directive 2011/65/EU « RohS »
- Certification Mark : CE

Manufacturer: ITALTRECCE S.r.l.
**Address: Via Moncalieri, 99/26 - Fraz. Tetti Cagliari
10048 Vinovo TO - Italy**

Description: Braided Ground Straps intended for use in grounding on Low-Voltage Electrical Equipment.
Series MT or MTT, followed by 006, 010, 016, 025, 035, or 050; followed by S or R; followed by –S, –BS, R, or BR; may be followed by I; followed by XXXX which may be 50 through 5000; may be followed by F; may be followed by XX which may be 4 through 30.

Standard (s):

- **IEC 60364-5-54:2011** “Low-voltage electrical installations - Selection and erection of electrical equipment - Earthing arrangements and protective conductors”.

Note: The devices in regards to engineering conditions (current or temperature ratings, spacing, mounting means and securement ...) are under the responsibility of the customer (user) and he should be evaluated in the end-product investigation according to the above standard.

The devices are designed according to:

- **EN 13602** “Copper and copper alloys - Drawn round wires for the manufacture of electrical conductors”.
- **EN 1652** “Copper and copper alloys - Copper plates, sheets and strips for electrical purposes”.
- **EN 14436** “Copper and Copper Alloys - Electrolytically tinned tapes”.
