## Description

- For use with housings of the EPIC® H-Q series.
- Protects the plug connector from dust, dirt and moisture if there is no connection with a mating connector.
- Allows protection class IP 65 due to the reliable sealing of the housing.
- Protective cover available with and without sealing. If the plug connection to be protected already includes a sealing, a protective cover without sealing should be selected.

## General Characteristics

|                           |                        |
|---------------------------|------------------------|
| Series                    | H-Q                    |
| Version                   | Protective cover       |
| Locking                   | Pins for central lever |
| Protection (DIN EN 60529) | IP 65 (latched)        |
| Temperature Range         | -40°C bis +125°C       |
